汽车安全技术学术会议简介

Brief introduction of The Safety Technology Committee of SAE-China

第一届中国工程学会汽车安全技术学术会议由黄世霖教授创办于1998年。会议一直秉承“紧贴工程实际，深化汽车安全技术，推动汽车产业进步，”的宗旨。从当时只有十余名专家十几篇论文的研讨会，逐步发展成如今每年有全国相关研究机构、整车厂的三百余专业人士参与，百余篇论文的学术交流盛会。它见证了中国汽车工业由小到大的历史，也必将见证中国汽车工业由大到强之路。

The first session of the Safety Technology Committee of SAE-China was founded in 1998 by Professor Huang Shilin. The Conference has been adhering to the purpose of "close to the actual engineering, deepen the automotive safety technology, and promote the progress of the automobile industry". The conference was built from a mini seminar with only more than ten experts and papers to the latest national grand meeting with more than three hundred experts from research institutions and OEMs. The meeting witnessed the history of Chinese automotive industry from small to large, and will also witness him from large to strong.
